Linda creates hand poured Aromatherapy Soy and Pillar Candles using only top quality waxes and the purest essential oils.

Finding something that she loved to do from the heart, with the intention of offering pure products that would help others become calm and balanced, set her on the path of candle making and over the years her product line expanded to include Flower Water Mists, Sun Catchers, Organic Herbal Products and Blended Essential Oil Perfumes.

Artist Bio

Linda was born in Florida and grew up in Connecticut. She searched at a very young age for her purpose in life always remembering that she wanted to help people.

She realizes that life is all about stepping stones, each step building on the next, and is grateful for every step and every person she meets along the way. In searching for her purpose in life she discovered Reiki and felt like she'd been brought home. Reiki is an ancient healing practice originating in Japan. A light touch creates a deep relaxation, releases blocked energy, relieves the effects of stress and enhances the body's natural ability to heal itself through the balancing of energy.

Reiki led her to Sound Therapy and she combined **Sound energy** with **Reiki energy** finding it created a powerful state of calm and balance. Her belief is that there is a definite connection to the healing of the spirit and the healing of the body. This ultimately led her to create her own business called Spiritual Balancing®.

Reiki and Sound Therapy led to Aromatherapy and combining

Aromatherapy with her love of candles set her on the path of candle making. What was most important to her was to use only the purest essential oils and ingredients. Over the years her product line expanded to include Flower Water Mists, Sun Catchers, Blended Essential Oil Perfumes and after studying with well known herbalist Rosemary Gladstar, Organic Herbal Products.

Her candles have been offered at many upscale Spas including the Sanctuary Spa on Kiawah Island in South Carolina, Spas in Florida and North Carolina as well as Day Spas, Health Food Stores and Specialty Retail stores.

Since moving to Leicester, NC, Linda and her husband John have created Spirit Mountain Sanctuary and offer several places to vacation on 44 acres with natural springs and hiking trails. Their GOAL is for guests to experience a level of relaxation and harmony with the earth, and their HOPE is that guests reconnect to their true Spirit!

Life truly is a journey and Linda is grateful every day for every step!

Artist Statement

I live every moment with the best of intentions and kindness in my heart in the hope that this transfers to whatever I do, and I in some small way hope my products enhance and contribute to the calmness and peacefulness of your life.
